Innovative Traceability Solutions at a market

Leveraging Technology to Achieve "TRUE" Traceability

Supported Functionality

Trade network administration

Source chain mapping

Compliance management

Digital compliance

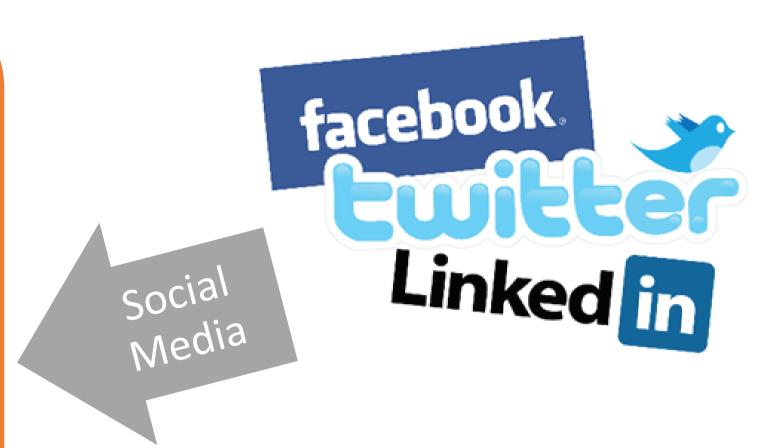

certification

Product labeling

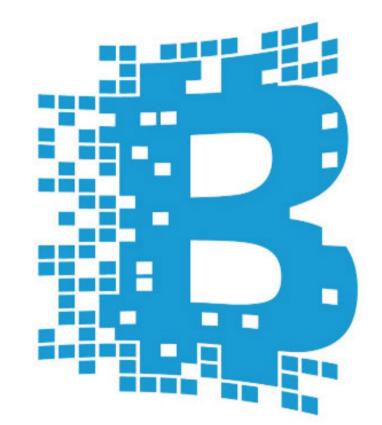

Chain of custody reporting

Logistics

Traceability & Assurance

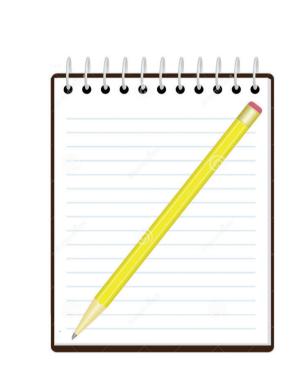

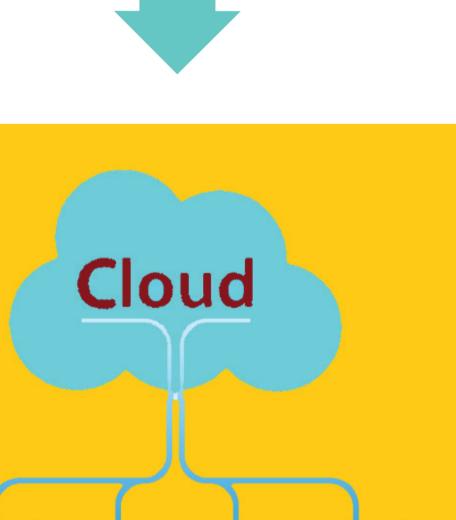

Benefitting From Digital Transformation

Inefficient disjointed processes

Manual paper based data management

Disconnected legacy systems

Mobile / PC data capture

Cloud based data management

Efficient / real time response

Integrated & automated certification and chain of custody - true traceability
